Description

Business Analyst

As a Business Analyst, you'll be the bridge between business needs and technical solutions. You'll work closely with cross-functional teams, including product managers, engineers, and designers, to gather requirements, analyze data, and develop solutions that drive user engagement and business growth.

PhonePe Careers

Responsibilities:

- **Gather and analyze business requirements:** Understand stakeholder needs, translate them into actionable requirements, and document them clearly.
- **Conduct user research and market analysis:** Identify user needs, pain points, and market trends to inform product development and feature prioritization.
- **Develop user stories and product specifications:** Create detailed user stories and specifications that outline the functionality and behavior of new features.
- **Collaborate with cross-functional teams:** Work closely with product managers, engineers, designers, and other stakeholders to ensure product development aligns with business goals.
- **Analyze data and measure performance:** Track key metrics, analyze data, and identify opportunities for improvement.
- **Stay up-to-date with industry trends:** Continuously learn and stay informed about the latest trends in fintech and digital payments.
