Description

TCS Career

Be a Part of Something Big: PHP Developer at TCS!

About TCS

Have you ever wondered how companies keep track of all their information? That's where TCS comes in! Tata Consultancy Services (TCS) is a leading global IT company that helps businesses run smoothly using technology. As a PHP Developer at TCS, you'll play a vital role in this exciting world.

The Position: PHP Developer

This is your chance to join a friendly and supportive team where you'll be responsible for entering information into computer systems. Imagine all the data companies use, like customer details, product information, or even survey answers – you'll be the one making sure it's all organized and accurate!

(adsbygoogle = window.adsbygoogle || []).push({});

What You'll Do (Key Responsibilities):

- Typing information from paper forms or other sources into computers.
- Checking your work carefully to make sure there are no mistakes

(proofreading).
- Keeping track of your progress and meeting deadlines.
- Following clear instructions and asking questions if you're unsure.

What We're Looking For (Skills and Qualifications):

- Strong typing skills (at least 40 words per minute).
- A keen eye for detail – you'll be a data detective!
- Good computer skills – you'll be using our company software.
- The ability to follow instructions and work independently.
- A positive attitude and willingness to learn.

Welcome Aboard, Fresher or Experienced!

Whether you're new to the workforce or have some experience, we welcome you to apply! We provide excellent training to get you up to speed on our systems and processes.

How to Apply:

Visit the TCS careers website https://www.tcs.com/careers and search for "PHP Developer" positions. We look forward to hearing from you!

Ready to Make Your Mark?

Join our team and be a part of something big! As a PHP Developer at TCS, you'll play a key role in helping businesses thrive. You'll have the opportunity to develop valuable skills, work in a supportive environment, and enjoy a great benefits package.

General Overview: Duties and Responsibilities

As a PHP Developer, your day-to-day tasks will involve:

- Receiving data from various sources (paper forms, digital files, etc.)
- Entering the data accurately into our company software.
- Verifying the entered data for any errors (typos, missing information).
- Following established procedures to ensure data quality and consistency.
- Meeting deadlines and maintaining a good work pace.
- Communicating any issues or questions to your team leader promptly.

We believe in a collaborative work environment, so you'll be encouraged to ask questions and learn from your colleagues. There's always something new to discover in the world of data entry!

Join TCS and start your exciting journey today!
