Description

TCS Job Opportunities

About Tata Consultancy Services (TCS):

TCS is a leading global IT services, consulting, and business solutions organization. We work with businesses across industries to co-create and execute their digital transformation journeys. Our commitment to innovation and excellence has positioned us as one of the world's most admired brands. We empower our employees to push boundaries, learn new skills, and build fulfilling careers.

Why Join Us as a Data Recovery Specialist (Remote)?

In this critical role, you'll play a pivotal role in ensuring business continuity at TCS. You'll be responsible for recovering lost or corrupted data from various storage devices and systems. Your expertise will be crucial in minimizing downtime and safeguarding valuable information for our clients.

This is a remote position, offering you the flexibility to work from the comfort of your own space. You'll be part of a collaborative and supportive team, working alongside experienced professionals who will guide you in your growth. Additionally, you'll have access to industry-leading training and development resources to continuously enhance your skills.

Position: Data Recovery Specialist (Remote)

Hiring organization

Tata Consultancy Services

March 18, 2024

Valid through

31.08.2024

APPLY NOW

Company: Tata Consultancy Services (TCS)

Location: Remote (Open to applicants worldwide)

Job Summary:

As a Data Recovery Specialist, you'll be responsible for a wide range of tasks related to data recovery and disaster prevention. You'll diagnose data loss problems, implement recovery procedures, and restore critical information. Your responsibilities will also include:

- Analyzing data loss scenarios and identifying the root cause
- Utilizing specialized data recovery software and tools
- Recovering data from various storage devices (HDDs, SSDs, servers, etc.)
- Verifying data integrity and ensuring successful restoration
- Documenting recovery procedures for future reference
- Participating in regular data backup and disaster recovery planning
- Collaborating with IT teams and clients to ensure smooth data recovery processes

(adsbygoogle = window.adsbygoogle || []).push({});

TCS Careers

Key Responsibilities:

- Perform advanced data recovery techniques using industry-standard software
- Analyze complex data loss scenarios and determine the most effective recovery approach
- Prioritize tasks based on the urgency and criticality of data loss
- Communicate effectively with clients and internal teams to keep them informed of progress
- Maintain detailed documentation of recovery procedures for audit purposes
- Stay updated on the latest data recovery technologies and best practices

Required Skills and Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience)
- Minimum 1-2 years of experience in data recovery or related IT support role (for experienced professionals)
- Strong understanding of data storage technologies (HDDs, SSDs, RAID, SAN, etc.)
- Proven ability to troubleshoot and diagnose data loss problems
- Excellent working knowledge of data recovery software and tools
- Strong analytical and problem-solving skills
- Meticulous attention to detail and a commitment to accuracy
- Excellent communication and interpersonal skills

Experience:

- This role is open to both experienced professionals and freshers with a strong academic background and eagerness to learn.
- For experienced professionals, 1-2 years of experience in data recovery or a related IT support role is preferred.
