### Description

## TCS Recruitment 2024: DevOps Engineer (Remote Positions Available)

**Do you thrive in fast-paced environments where innovation is key? Are you passionate about automation and streamlining software delivery? If so, then a career as a DevOps Engineer at TCS could be the perfect fit for you!**

TCS, a global leader in IT services and consulting, is seeking talented individuals to join our growing DevOps team. In this exciting role, you will play a pivotal role in automating and optimizing our software development lifecycle, ensuring efficient delivery of high-quality solutions.

### Why Join TCS as a DevOps Engineer?

- **Shape the Future of Technology:** At TCS, you'll be at the forefront of technological advancements, working on cutting-edge projects that drive innovation across various industries.
- **Global Exposure:** TCS boasts a presence in over 46 countries, offering you the opportunity to collaborate with diverse teams and gain invaluable global exposure.
- **Continuous Learning and Development:** We are committed to your professional growth. TCS provides a comprehensive learning ecosystem with industry-recognized certifications and training programs to help you hone your skills and stay ahead of the curve.

### Hiring organization

Tata Consultancy Services

### Date posted

March 20, 2024

### Valid through

31.12.2024

APPLY NOW

- **Work-Life Balance:** We believe in fostering a healthy work-life balance. TCS offers flexible work arrangements, including remote work opportunities, to ensure your well-being.
- **Competitive Compensation and Benefits:** We offer a comprehensive benefits package that includes competitive salaries, health insurance, paid time off, and retirement savings plans.

### Job Summary:

In this role, you will be responsible for the entire DevOps lifecycle, from infrastructure provisioning and configuration management to continuous integration and delivery (CI/CD) pipeline implementation. You will work closely with development and operations teams to automate processes, improve efficiency, and ensure the smooth delivery of software applications.

### TCS Jobs Near Me

As a remote-friendly company, TCS offers exciting opportunities for DevOps Engineers across the globe. You can leverage your skills and contribute to groundbreaking projects from the comfort of your home or a preferred work location.

### Key Responsibilities:

- Design, develop, and implement CI/CD pipelines using industry-leading tools like Jenkins, GitLab CI/CD, or Azure DevOps.
- Automate infrastructure provisioning and configuration management using tools like Ansible, Chef, or Puppet.
- Configure and manage containerization technologies like Docker and Kubernetes.
- Monitor and troubleshoot infrastructure and application performance.
- Collaborate with development and operations teams to identify areas for improvement and implement DevOps best practices.
- Stay up-to-date on the latest DevOps trends and technologies.

### Required Skills and Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum 1-2 years of experience as a DevOps Engineer or a related role (for experienced professionals).
- Strong understanding of CI/CD principles and methodologies.
- Proficiency in scripting languages like Python, Bash, or PowerShell.
- Experience with infrastructure as code (IaC) tools.
- Working knowledge of containerization technologies (Docker, Kubernetes).
- Excellent problem-solving and analytical skills.
- Strong communication and collaboration skills.

### Experience:

We welcome applications from both experienced DevOps Engineers and enthusiastic freshers eager to learn and grow in this dynamic field. For experienced professionals, 1-2 years of experience in a similar role is preferred.
