Description

TCS Recruitment 2024

As a Junior Developer at TCS, you will play a vital role in developing and maintaining software applications. You will work closely with senior developers and project teams to understand requirements, design, code, test, and deploy applications. This is a fantastic opportunity to gain valuable experience and launch your career in the IT industry.

TCS Careers

Responsibilities:

- Collaborate with senior developers and project teams to understand project requirements and specifications.
- Write clean, efficient, and well-documented code using various programming languages and frameworks.
- Conduct unit testing and integration testing to ensure code quality and functionality.
- Participate in code reviews and bug fixing activities.
- Contribute to the development and maintenance of software documentation.
- Stay up-to-date on the latest technologies and trends in software development.
