Description

Unacademy Recruitment 2023-24

Unacademy, India's leading ed-tech platform, is on the lookout for brilliant minds like yours to join our dynamic team as Data Analysts! This is your chance to be at the forefront of revolutionizing education, using your data skills to shape personalized learning experiences for millions of students.

Unacademy Careers

Responsibilities:

- Design and execute data analysis projects to extract and interpret meaningful insights from user behavior, learning patterns, and content performance.
- Develop and maintain data pipelines and dashboards to track key metrics and provide real-time insights.
- Collaborate with cross-functional teams to translate data findings into actionable recommendations for product development, content creation, and marketing strategies.
- Communicate data insights effectively through reports, presentations, and visualizations.
- Stay updated on the latest data analysis tools and techniques, continuously improving your skillset.
