Wipro Careers

Responsibilities:

- Participate in the design, development, and testing of AI systems and machine learning models.
- Assist senior engineers in analyzing data, identifying patterns, and building effective AI algorithms.
- Stay up-to-date on the latest advancements in AI and machine learning, continuously learning and developing new skills.
- Contribute to the development and documentation of technical specifications for AI projects.
- Work collaboratively with cross-functional teams, including data scientists, software engineers, and product managers, to ensure seamless integration of AI solutions.
